

I only support businesses that honor my constitutional rights

Your “no gun” sign prevents me from patronizing your business so I, my family and other gun owners will spend our money with your competitors.

NO GUNS = NO MONEY

Look on the back to see why you should remove your sign 

Your “no gun” sign is bad for business.

- It does nothing to make you safer.
- It simply tells criminals you're an easy target.
- It drives away good customers with a handgun carry permit.

Tennessee handgun carry permit holders have passed an FBI background check and have their fingerprints on file with the FBI. Statistics prove we are far more law abiding than the general public. Our numbers are growing every day. We are ideal customers and will patronize your business if you let us.

PLEASE DON'T POST AGAINST HANDGUN CARRY PERMIT HOLDERS.
