Position: Oppose

Priority:

Comment: This is another category of bill that creates special rules/procedures for some civilians but not others. It therefore unduly complicates and confuses the law. TFA opposes this legislation on that basis and instead urges the sponsors to repeal the provisions of state law which prohibit citizens, any citizens, from carrying in any public building (TFA would not oppose a restriction on carrying in a room in which court proceedings are currently in progress IF the law required the government to provide secure storage for firearms for those involved in the court proceedings)

Priority:

*Comment:* This bill addresses a problem with existing law where the presumption of self defense under certain circumstances is not available if the person is engaged in any unlawful activity. The court of appeals has held that there does not need to be a connection between the self-defense events and the illegal action such that a zoning violation, a failure to have vehicle insurance, etc., would deprive the person of the self-defense presumption. This bill alters that slightly by eliminating the "any" clause to exclude Class C and Class B misdemeanors. TFA requests that the bill be amended to simply delete the reference to "any unlawful activity" and not substitute another qualifier. The self-defense laws, as written and without that clause, would be entirely adequate.

*Comment:* The bill's inclusion of those carrying pursuant to TCA 39-17-1350 continues the poorly policy concept of creating different classes of civilians who are "off duty" based on their status or employment. Any legislation which differentiates between classes of citizens in the self-defense issue based on what the person did prior to retirement, whether the person served any government role, or whether the person when "on duty" is in some category of law enforcement is a law which denies other citizens the equal right under the law to protect their lives in those same locations.
