Comment:	Federal law broadly defines the elements that prohibit a person from purchasing or possessing firearms. Tennessee adopts those standards - even if it should not. However, other states have even more stringent requirements and this law could indirectly Tennessee to be the lowest common denominator of all states when it comes to infringing 2nd Amendment rights.

This bill addresses a problem with existing law where the presumption of self defense under certain circumstances is not available if the person is engaged in any unlawful activity. The court of appeals has held that there does not need to be a connection between the self-defense events and the illegal action such that a zoning violation, a failure to have vehicle insurance, etc., would deprive the person of the self-defense presumption. This bill alters that slightly by eliminating the "any" clause to exclude Class C and Class B misdemeanors. TFA requests that the bill be amended to simply delete the reference to "any unlawful activity" and not substitute another qualifier. The selfdefense laws, as written and without that clause, would be entirely adequate.

Comment:	The bill's inclusion of those carrying pursuant to TCA 39-17-1350 continues the policy concept of creating different classes of civilians who are "off duty" based on their status or employment. Any legislation which differentiates between classes of citizens in the self-defense issue based on what the person did prior to retirement, whether the person served any government role, or whether the person when "on duty" is in some category of law enforcement is a law which denies other citizens the equal right under the law to protect their lives in those same locations. NOTICE the House amendment would allow off duty officers to ignore signs on private property which prohibit guns.

Comment:	This is the "Governor's" bill which is mischaraterized as "constitutional carry". It IS NOT constitutional carry. This bill creates an exception for only those individuals who
	would be eligible to be issued an enhanced handgun permit (but who have not done so) to carry in very limited locations without a permit. Further, it provides no option to carry in public parks or public buildings. It will not protect an individual from being fired if they store a handgun in their personal car at work (a permit will prevent that). The
	bill appears PRIMARILY designed to increase penalties on some criminals and to increases state expenses to do so.

Recognizes that the primary purpose of the Second Amendment is to protect our freedoms. To do so, citizens must be able to keep and bear arms that are at least equal to those of their government's basic infantry unit. In the year 2020, we recognize that those include semi-automatic AR-15s, AK-47s, and similar firearms.
