

Tennessee Firearms Association

2022 "ATF" Pledge

To the Tennessee Firearms Association and Tennessee's 2nd Amendment Supporters:

I am a candidate for office in 2022. I fully support the fact that each of you have a right, protected by the Constitution, as the U.S. Supreme Court has just held, to keep and bear arms including carrying firearms for self-defense and to do so without the burdens of government infringements. That right includes the capacity to purchase, sell and otherwise acquire firearms and ammunition and to be a firearms manufacturer or dealer.

Regulatory agencies, specifically the Bureau of Alcohol, Tobacco, Firearms and Explosives, ignore the purpose and scope of the 2nd Amendment and are working zealously to impair your 2nd Amendment rights. ATF's efforts include Biden's egregious "zero tolerance" policies that call for revoking the licenses of as many firearms manufacturers, wholesalers and dealers as possible in a blatant effort to shut down the "supply chain" of the items that you, as citizens, have a right to acquire under the Second Amendment.

As a candidate, and, if elected, as a public steward, I make this solemn pledge to you:

- I will expose the abuses of ATF and other agencies
- I will curtail and defund any and all efforts by regulatory agencies, including the ATF, that might result in restrictions or reductions in the "supply chain" for items protected by the 2nd Amendment
- I will work to prohibit ATF from denying or revoking a firearms license to a dealer, wholesaler or manufacturer unless the individual is clearly prohibited by a law enacted by Congress from purchasing or possessing firearms
- I will block any and all efforts by President Biden, Congress, the State of Tennessee and state or federal agencies to regulate or infringe the rights of Tennesseans to get and keep licenses to engage in the businesses of firearms manufacturing, distribution and/or training.
