Comment: The bill specifically references "deer." It should likely be amended to include the search for or recovery of game or injured animal. Why, for example, limit this to deer when it just as easily could be elk, bear, exotics, waterfowl, etc.? Also, why is it limited to those animals wounded while lawfully engaged in hunting? Are there other reasons (e.g., road injuries) that should allow for such search and location?

Sen. Gardenhire, Todd
Rep. Freeman, Bob

Summary: Establishes a procedure through which a district attorney general or person convicted of a criminal offense may, at any time, request post-conviction relief by filing a verified petition alleging actual innocence based on new evidence that was not known by the judge or jury at the time of conviction, including scientific and non-scientific evidence. Prohibits the court clerk from charging a fee for the filing of the petition. Requires the court to schedule the matter for a hearing if the court determines the petitioner has a valid claim. Authorizes a petitioner to seek relief irrespective of whether guilt was determined following a jury trial, plea of guilty, plea of best interest, or plea of no contest. Priority:

Comment: Support is limited. The House Subcommittee Amendment revises current law by creating a number of exclusions to the charge of carrying a firearm which needlessly complicates state law. Further, it inexplicably does not create exceptions but rather creates defenses to the charge of carrying a stick or club. This amendment does not create constitutional carry but it does represent a significant revision of existing law.

Priority:

Comment: This bill was suddenly amended by the House Sponsor to completely change the effect of the legislation. It now seeks, among other things, to materially change the definition of a machinegun under state law. The problem that this creates is that machineguns already have very technical definitions under federal law and this amendment risks creating state law ambiguities that could give rise to different interpretations of state and federal law. Oppose this rushed proposed change in the law particularly since neither sponsor has a history establishing a clear or strong understanding of either the 2nd Amendment or the Supreme Court's rulings relative to the Second Amendment.

Priority: 1 - Top-tier

Comment: The bill recklessly adds a lot of additional crimes as "dangerous" to an existing list.

For example, the bill adds “reckless homicide” TCA 39-13-215 as a “dangerous felony”. The result is that if someone “possesses” a firearm with the intent to go armed (which we believe is a standard that violates the Supreme Court decision in Bruen) at the time of the offense then the person gets as an additional crime or sentence of from 3 to 10 years in prison with no parole.

Consider, for example, the case of an individual ho was convicted of reckless homicide, a Class D felony. The facts involved a car wreck in which two occupants of the other vehicle died. However, TN and federal law are clear that in Tennessee a “reckless homicide” is a nonviolent felony. Indeed, at least one Tennessee appellate court and one federal court have reached the same conclusion:

/quote/

We decline, however, to characterize reckless homicide as a crime of violence because it requires reckless conduct rather than intentional or knowing conduct. See *United States v. Portela*, 469 F.3d 496, 499 (6th Cir.2006) (holding that Tennessee’s vehicular assault statute, with the requisite mens rea of recklessness, was not a crime of violence under the United States Sentencing Guidelines). Because the defendant’s reckless homicide conviction was not a violent felony, we decline to weigh it more heavily against his credibility than other non-violent felonies.

//endquote//

See, *State v. Parham*, 2010 WL 2898785, at *8 (Tenn.Crim.App.,2010)

This legislation seeks to elevate a non-violent felony conviction to a “dangerous felony” – a term that suggests at a minimum that there be some mens rea that would warrant a finding of knowing or intentional violence as opposed to recklessness.

Further, under the legislation if the individual had a firearm in their possession, e.g., a longarm for which there are few affirmative defenses under TN law, such that it qualified under the “intent to go armed” clause then a person committing a nonviolent felony which the state established was reckless but not either intentional nor knowing would be sentenced from 3 to 10 years in prison even if the normal consequence of the sentencing statutes called for no prison time at all for the underlying crime.

●●●●●●●●●● Sen. Crowe, Rusty
●●●●●●●●●● Rep. Slater, William

Summary: Requires issuance of temporary hunting licenses, of up to seven-days duration and at no cost, to disabled veterans participating in hunting experiences sponsored and paid for by not-for-profit organizations. Broadly captioned.

Amendment Summary: Senate amendment 1 (005237) adds that the executive director of the wildlife resources agency, or the executive director's designee, must, upon request, issue a temporary group hunting event permit to a not-for-profit organization that sponsors and pays for a hunting experience at no cost to a veteran with any percentage of service-connected disability. Provides that such a temporary group hunting event permit must be for a duration that is no longer than the duration of the hunting experience for which the permit is issued, but in no event may the permit be valid for more than seven days. Such hunting experience must comply with all applicable laws, regulations, and proclamations. Requires participants to provide all information necessary to obtain an individual hunting license in connection with a temporary group hunting event permit, and none of the cost for the permit must be borne by the disabled veteran participant. Requires the executive director, or the executive director's designee, to accept as evidence of service-connected disability a certification from the veterans' administration. Provides that in order to account for lost federal funding to the agency and to comply with present law, the executive director, or the executive director's designee, may collect all pertinent and relevant information to certify the unique individuals taking part in the hunting experience under a temporary group hunting event permit. Authorizes the Tennessee fish and wildlife commission to promulgate rules necessary to effectuate this amendment.

Comment: NOTE: This legislation would convert TN's handgun permit to a firearms permit. The effect is it would allow the transport of loaded rifles/shotguns. Currently, its a crime to carry a loaded longarm in Tennessee - even on your own property or while hunting. Those activities are classified as "defenses" to the crime which means that if an officer observes the activity the officer can stop, detain, question, take possession of the weapon, issue a citation and/or arrest the individual. The burden is on the individual to raise the defenses but that is a "trial" issue and not something that the officer has to consider.

SB1296/HB1314 CRIMINAL LAW: Criminal offenses for threatening to commit an act of mass violence and posting an individual's number or address.

Sen. Johnson, Jack
Rep. Lamberth, William

Summary: Creates a criminal offense for threatening to commit an act of mass violence. Creates a criminal offense for posting on a publicly accessible website the telephone number or home address of an individual with the intent of causing harm or a threat of harm to the individual or a member of the individual's family or household. Part of Administration Package.

Amendment Summary: Senate Judiciary Committee amendment 1, House Judiciary Committee amendment 1 (004348) creates a Class E felony offense for knowingly, by any means of communication, threatening to commit an act of mass violence and the threat causes another to reasonably expect the commission of an act of mass violence. This classification is enhanced to a Class D felony if: (1) the violation involves a threat to commit mass violence on the property of a school, house of worship, or government, or at a live performance or event; (2) the defendant has one of more prior convictions for such offense or a Class A misdemeanor threat of mass violence on a school property; or (3) the defendant takes a substantial step towards the execution of the threatened act and engages in preparatory actions. Authorizes a sentencing court to order a person convicted of threatening to commit an act of mass violence to pay restitution, including costs and damages resulting from the disruption of the normal activity that would have otherwise occurred but for the threat to commit an act of mass violence. Creates a Class B misdemeanor offense for posting on a publicly accessible website a person's telephone number or address with the intent to threaten or cause harm. Enhances the penalty, from a Class B misdemeanor to a Class A misdemeanor, if the offense results in harm to the individual or a member of the individual's household.

Requires physical injury for a negligent entrustment action rather than an unreasonable risk of physical injury. Specifies that a person who will be subject to an ordinance in the future or reasonably intends to be physically present in the political subdivision is an adversely affected party for purposes of filing certain actions. Makes various other changes regarding civil actions against arms dealers, manufacturers, and sellers and the preemption of local regulation of firearms. Broadly captioned.

Amendment Summary: House Civil Justice Committee amendment 1 (004178) makes various revisions to certain definitions, legal liabilities, burdens of proof, processes, and rights of action as they pertain to qualified civil liability actions brought against a manufacturer or seller of firearms and other weapons, to the effect of broadening and reinforcing certain legal immunities such manufacturers and sellers are provided against liability actions related to the use of their products. Restricts the applicability of foreign judgements in such actions in this state under public nuisance or market share theories of liability by requiring they do not violate the relevant policies of this state, and that they otherwise would be allowable under the laws of this state. Increases restrictions on local governments to regulate and enforce certain laws and policies related to firearms and ammunition and their use, including limiting such regulations to only those established by ordinance or resolution, rather than also such regulations enacted by policy or rule, and to only those established or authorized by state law, rather than state or federal law. Elevates state law supremacy in qualified civil liability actions against manufacturers and sellers of firearms and other weapons, and in the regulation of firearms, weapons, and weapons products, generally.

SB1384/HB683 PROFESSIONS & LICENSURE: Creates the enhanced armed guard certificate.

Sen. Watson, Bo
Rep. Lamberth, William

Summary: Creates the enhanced armed guard certificate that may be obtained upon completion of certain training and other requirements by an armed security guard/officer who has at least five years of full-time experience as a law enforcement officer or four years of active duty military experience in a combat arms military occupational specialty. Directs the commissioner of commerce and insurance to establish and approve an enhanced armed guard training course. Specifies that the enhanced armed guard training course be offered no less than quarterly and be at least 16 hours in length. Also requires the enhanced armed guard training to include must also include scenario-based training on when a rifle-caliber weapon may be deployed in an offensive or defensive posture and training on the secure storage of a rifle-caliber weapon when the weapon is not deployed.

Amendment Summary: House amendment 1 (004376) changes references of "enhanced armed guard certification" to "enhanced armed guard registration" throughout the bill. Revises present law provision exempting certain persons and entities from application of the "Private Protective Services Licensing and Regulatory Act" to, instead, only exempt such person and entities from the requirements of obtaining a license or registration under such Act. Changes the provisions authorizing an enhanced armed guard to carry a rifle caliber weapon under the bill to, instead, carry a rifle or shotgun. Defines "rifle" as any firearm designed, made or adapted to be fired from the shoulder and to use the energy of the explosive in a fixed metallic cartridge to fire a projectile through a rifled bore by a single function of the trigger. Defines "shotgun" as any firearm designed, made or adapted to be fired from the shoulder and to use the energy of the explosive in a fixed shotgun shell to fire through a smooth-bore barrel either a number of ball shot or a single projectile by a single function of the trigger. Revises the provision requiring an applicant, to be eligible for registration enhancement, to submit to and pass a criminal background check to, instead, submit to, with results submitted to the commissioner of commerce and insurance, a fingerprint-based criminal history record check to be conducted by the Tennessee bureau of investigation and then a fingerprint-based national criminal history record check to be completed by the federal bureau of investigation. Removes the requirement that the enhanced armed guard training course be developed by the commissioner of commerce and insurance and only requires it be approved by the commissioner. Revises the renewal requirements for an enhanced armed guard registration enhancement to, instead, require such guard to (i) pay an annual renewal fee, as set by the commissioner of commerce and insurance; (ii) submit to a criminal background check, with results submitted to the commissioner; and (iii) successfully complete an annual requalification course, approved by the commissioner, that is a minimum of eight hours in duration, of which no less than six hours consist of rifle and shotgun training and qualification on a weapon range. House amendment 2 (005468) removes the provision limiting the exemptions only to requirements to obtain a license or registration under the "Private Protective Services Licensing and Regulatory Act" instead of applying to the entire act. Adds a provision prohibiting a person from carrying a rifle or shotgun while providing security services without holding a current enhanced armed guard registration.

Comment: Tennessee law presently prohibits the use of deadly force, including brandishing a weapon, to protect real property or personal property from looters, thieves, robbers and/or trespassers. This was a reported problem several years ago in the Nashville riots and was more recently a problem to the hurricane victims in East TN. This law would allow the use of force to protect real and personal property, including the brandishment of a weapon.

Comment:

Tennessee's constitutional clause relative to firearms was enacted in 1870 and contains a provision, based on "Jim Crow" theories, that the legislature has the authority to regulate the wearing of arms with a view to prevent crime. It is an open door for any regulation at all. As a result of the Supreme Court's 2010 decision in *McDonald v. City of Chicago*, the TN constitution's grant of legislative authority is unconstitutional because it violates the 2nd and 14th Amendments. HJR53 would amend the state constitution to protect the right to keep, bear and wear arms by removing the clause that portends to allow regulation by the legislature as long as it has a crime prevention purpose.
